

## ABSTRACT

The topic selected for my study is Management of export Agricultural crops in Udawalawe area.

Due to the fact of being selected as field officer in the Udawalawe area by Ace processing Ltd. I gladly accepted the offer given to me.

The area the soil characteristics of the Udawalawe is indicated in the map attached.

Secondly climatic conditions were taken up for discussion. Rain fall figures about 11 years & Maximum, Minimum temperatures, Wind velocity, Evaporation, RH, day length figures from mid of 1991 to February of 1994 were taken into consideration.

As main crops in this area are Banana, Papaw, Sherkin, Baby corn. The detail of cultivation practices adopted were in the study. The management practices of above crops were also included covered with pictures. Specially I have been working in Banana & Papaw.

The data collected from the experiments conducted to verify the suitability of the farm for betel & Kankun, Mukunuwanna, Thampala green leaves. The problems encountered & proposals for the improvement of the farm are given there.

## ACKNOWLEDGMENT

Firstly I would like to offer my sincere thanks to Mr. Mohan Rathwatte, who is the Manager of Ace Processing [Pvt.] Ltd., for the facilities & guidance given to me work at Kuttigala farm.

In the farm Mr. Athur Perera, Plantation Manager of Ace Processing Ltd. & Supervisor gave me his fullest corporation and and guidance. I thank him too and I take this opportunity to thank Kuttigala farm officers & clerical staff & farm labourers who extended their assistance to progress my work successfully.

Acting Additional Director Mr. Ananda de Mel & college lecturer Mr. Wasantha Gunathilaka of the agriculture programme at Makandura gave instructions & knowledge without any reservation during the Inplant training. So I offer my sincere thank to both of them.

I thank Mr. Sujeewa Fernando Executive officer of Ace processing Ltd. He has always given me instructions.

I am grateful to Mahaweli officers at Walawe special area & Udawalawe Maintenance branch officers who gave me great help to find the particulars about Walawe area.

I extend thanks to my friend Hemantha Ganage who helped me to take photographs.

Further I wish to thank Ashen Samitha Wijavasingha, one of my friends who gave me help to print this report neatly.
