

ABSTRACT

My In-plant training was completed at the Digana plant of Milco (pvt) Ltd. from September 2003 to March 2004. The training was carried out in the production, quality assurance, procurement, engineering, marketing and transport divisions.

At the production division, the production procedures and production principles of ice cream, yoghurt, unsweetened plain yoghurt, curd, drinking yoghurt, cheese, sterilized milk, pasteurized milk and ghee were learned. At the quality assurance division, knowledge was gained about the milk reception procedure and the quality assurance procedures of above mentioned products.

At the procurement division, knowledge was obtained about the milk collecting methods, farmer managing societies and the dairy development programs. Engineering division was consisted of a water treatment plant, boiler room, refrigeration system and a pollution management system.

Marketing procedure of products was learned at the marketing division and the working procedure was learned at the transport division.
